HB 178

## Testimony in Support of HB 178

Chairman Vance and members of the Committee, my name is Roger Nummerdor; I live in Helena and support HB 178. We have a number of Bills in the 62<sup>nd</sup> Legislative session that will be directly affected by HB178. We have two Bills, one that may make all voters vote by mail and the other that would make it possible to electronically register to vote. Without HB 178, how do we have confidence in voting process when these two bills only require a Driver's License or State ID to register to vote? As an election judge for Lewis and Clark County, I feel that this bill will strengthen the State of Montana laws by not allowing fraudulent use of a Driver's License or State ID from corrupting our voting system or other programs that use these as proof of residency.

I strongly urge this committee to support this Bill.
